SAMIR BHAGWAT AMBRE

M.Sc. Computer Science

Sangamner, Maharashtra, India | +91-9823936116 | 5198928@mitacsc.edu.in

PROFESSIONAL SUMMARY

M.Sc. Computer Science student with hands-on experience building AI/ML and full-stack applications using Python, FastAPI, LangChain, and JavaScript. Skilled in developing REST APIs, integrating large language models, and working with vector databases and data pipelines. Published researcher in machine learning applications, seeking an internship to apply strong problem-solving and software development skills to real-world engineering challenges.

KEY SKILLS

Languages & Frameworks: Python, Java, JavaScript, Go, FastAPI, Flask, Django, Spring Boot

Data & AI: Machine Learning, Deep Learning, AI/ML Model Integration, LangChain, LLMs, ChromaDB, PySpark, Data Analytics, Data Engineering, Data Visualization, Power BI

Tools & Other: SQL, REST APIs, Git, HTML/CSS

EDUCATION

MAEER's MIT Arts, Commerce & Science College, Alandi (D), Pune *2024 – 2026*
M.Sc. Computer Science (Pursuing)

Sahakar Maharshi Bhausaheb Santuji Thorat College of Arts, Science and Commerce *2020 – 2023*
B.Sc. Computer Science (Full Time) — 57.91%

Higher Secondary Education (12th), Sangamner, Pune *2018*
Percentage: 62.62%

Secondary School Certificate (10th), Pune Division Board, Ganore *2016*
Percentage: 67.80%

PROJECTS

Multi-Agent AI Research Assistant *Feb 2026 – May 2026*
Python, FastAPI, LangChain, LLM, ChromaDB | Mentor: Girish Sir | Team Size: 1

- Designed and developed a multi-agent AI research assistant automating research, retrieval, and summarization workflows.
- Integrated large language models with AI agent workflows and built REST APIs using FastAPI/Flask.
- Implemented document processing and vector database integration (ChromaDB/FAISS) for retrieval-augmented responses.
- Tested, debugged, and optimized the system for accuracy and performance, reducing manual research effort through automated report generation.

AI Chatbot *Feb 2026 – Jun 2026*
Python, Flask, FastAPI, HTML, CSS, JavaScript, SQL | Mentor: Jevan Tonde Sir | Team Size: 1

- Built a functional AI chatbot integrating OpenAI APIs, improving response accuracy and performance.
- Delivered the project on schedule following successful testing and validation.

Car Rental Website *Jan 2026 – Jun 2026*
Java, Spring Boot, SQL, JavaScript, Flask, HTML, API | Mentor: Santosh Pandure Sir | Team Size: 3

- Collaborated on a full-stack car rental platform using Java, Spring Boot, and SQL with RESTful API integration.

PUBLICATIONS / RESEARCH

Predicting Student Performance Using Demographic and Attendance Data *Apr 2026*
International Journal of Creative Research Thoughts (IJCRT) | Mentor: Jevan Tonde | Co-authored (2 authors)

- Applied machine learning techniques (Python, SQL, MySQL, Deep Learning) to predict student performance from demographic and attendance datasets.

CERTIFICATIONS

Machine Learning Algorithms — Magic Bus (Infosys Foundation) *Jul 2025*
Score: 71/100

AWARDS & SCHOLARSHIPS

- Post Matric Scholarship

PERSONAL INTERESTS

Communication skills development and continuous learning in coding and emerging technologies.
